the chapter "technical information".

A reinforcing dowel 12 x 50 mm per hinge is recommended when the door is subject to heavy usage.

Adapted for the application on doors within the high-class sector the elegant, diameter-reduced hinge knuckle is ideal for slim, recessed frame facings.

Screws 4,5 x 50,0 mm can be used as an alternative for lowering the depth.

Suitable for

- Universal milling frame
- Template 5 250353 5 frame
- Template 5 250697 5 door - step 1
- Template 5 250698 5 door - step 2
- Template 5 250699 5

Combinations

VN 2900/160

Function range

fire resistance

smoke resistance
